GHOST COURIER

DEC.10/82

U.F.O's are they real?,well as I sit here and drink my coffee,watching little green men play tag around my cup,I wonder about it all.What if the world powers were behind all this u.f.o. business, they could keep in fear with ufo threats,also they would be able to keep new weapons hidden,new war machines could be explained and tested as UFO's.I believe in ufo's,but no matter how much evidence there is collected there are a lot of skeptics still saying that it was a big hoax.

One inmate has related his story about seeing a ufo while staying at bowden,it was a clear summer night and I was just about to go inside when I saw this light moving rapidly across the sky,it looked way to fast to be an airplane or helicopter so I stood and watched it awhile.Finally after some fancy flying it suddenly dissapeared,I did not sleep very well that night.

Some questions I would like answered:
How come convicts are never taken aboard an ufo and questioned?
How come only 2 out of every 5,000 reported sightings are from cons?
How come the govt's are always trying to hide things from the public.

Gooday A

I have decided that basketball reports are not worth the effort anymore.

HOCKEY at bowden

In case some of you did not know it there is a temporary ice "patch" that can be used to skate on. Guys are already using that to scrimmage, play hockey, on. Skates can be got from the rec. Also hockey sticks.

OUTSIDE NEWS

How do you get away with It

In Houston two drinking friends shot and killed each other at a bar, after arguing over how easy it was to kill someone and get away with it. D. Kirkley, 33, and J. Cole, 55, died of single gunshot wounds on Monday. WITNESSES say that bartender Cole claimed he could kill anyone without getting caught, Kirkley countered that the victim could retaliate by shooting back. Later, Cole picked up a pistol and said he was not sure if it worked. Cole then fired the gun, hitting Kirkley who then pulled out his own pistol and shot Cole.

So were still in the dark about how to get away with it, since the guy with the secret is dead.

SOVIET UNION USE THREATS

The Soviet Union announced Tuesday that if the U.S. continues to push the MX missile program that the S.U. would build its own MX class missile, which in no way would be inferior to the U.S. model. It looks like the scare tactic worked, on Wednesday the U.S. Congress turned down the proposed budget for the MX missile program. I say screw the S.U. and build arms like crazy, Countdown... 10...9...8...

Big Deal

In Swaziland today a woman lost her pet dog.

CHURCH NEWS

Friday the 10th - bible study, Mass 6pm Fr. Raab
Saturday the 11th- Caroline Choir 2pm
Sunday the 12th - Worship 6pm, Men of Song
