GHOST COURIER

Nov. 19/82 X

Inmates keep asking me why can't we pick our own committee members. Well we can pick our own committee members it's just that all persons who run for a spot on the committee are not validated. Now that is the question, why does the warden decide on who should be in the running for a spot on the committee, when the committee is there for the benefit of the inmates. I have put in a request to see the warden, and also the finance dept., to see what answers I can come up with, and to see if there is any way to straighten things out or change the way of things.

Right On for Cons

In Southfield, Mich., U.S.A., there is a no deposit, no return on policy for cons. If an escapee gets four states away, the state will leave him/her alone. Prison officials nation-wide are hopping mad. Carl Parsell, executive director of the 8,000-member Police Officers Association of Michigan, said he was referred to at a recent law-enforcement conference in Dallas as the man from the state with a "Funny system—they have a must return law on bottles but a no return law on prisoners." It would be nice if Canada would incorporate something like that, say a spread of two provinces.

### Social News

Many people are upset about the no refund policy that was set down by the administration. Well the word now is that the ITF's will be handed in after the social so anyone that does not show, that was down on the list of yours, then the committee will take the person off the list so you don't pay for him/her.

### Bridge Club

Watch for upcoming bulletins for a contract bridge club. If it is okayed then we will try to get the V+C area to play in, about once a week. Any ideas for this bridge club give them to the editor in writing.

### ABOUT the CHRISTMAS PARCEL

The way it is going to work is, first you spend your canteen in I.T.F up to 56.00 dollars, Then if your whole canteen doesn't cover or amount to 56.00 dollars then you can take the rest out of your compulsory savings but you must have a balance of 50.50 dollars/cents left.

BOOK REVIEW

by Glen Stewart

One of the most incredible books I have ever read- the astonishing account of a billion dollar counterfeit stock deal between the mafia and the vatican-with spinoffs into the narcotics deals of south america. Financial support of Latin American countries, International Banking and reaching deep into the U.S. Govt. Treasury office, and people close to, and in, the White House.

This book is published this year, but is about events as late as 1974-it is a statement of the truth, of the old cliché-truth is far more incredible than is fiction. The "Vatican Connection", by Richard Hammer-in the library.
